

Our Vision

EPBD's vision is to provide strategic advice and thought leadership to policy makers in shaping a dynamic, inclusive, and forward-looking economic policy ecosystem that unleashes the full potential of private enterprise, drives sustainable GDP growth, and ensures equitable prosperity for all.

Our Mission

Advocacy for evidence-based, market-friendly economic policies that catalyze industrial growth, job creation, and export competitiveness:

- Champion private sector led development by identifying and promoting reforms that incentivize innovation, investment, and fair competition.
- Promote inclusive growth by ensuring that policy outcomes support social mobility, reduce inequality, and enable Pakistan's youth to thrive in a modern, industrial economy.
- Foster informed dialogue between policy makers and business leaders to align national economic priorities with global opportunities.

What do we do

Provide strategic
advice by conducting
evidence based

Research

Produce research
based reports, briefs
and white papers

Publications

Inform and
influence policy
through

Advocacy

Pakistan's First Ever Shadow Policy Documents

Tax Policy & Administration Reforms
